

I am asking that you do not allow LPFM stations to have priority over FM translator services. This could effect the station, K-LOVE, that I listen to. As a mother, I want my children to listen to family-friendly programming that offers a wholesome Christian base. This is not only a positive and encouraging source for my family, but all the people in my community. If I didn't have K-LOVE to listen to, I would have no where to turn to. There is no other contemporary station in my area. You would be taking away something very positive and who knows what garbage might take it's place. Please do not pass this proposal. This would be harmful to my family, my community, and the public in general. Thank You
